

IT Consulting - fast help for all kinds of IT problems

“Our goal is to provide our customers with the best IT consultants in different areas in the shortest period of time”

Who we are

Duologic unites professional Ukrainian and Russian IT consultants, best experts in different areas.

We can help if you need to:

- find high professional and reliable IT specialist in the very short period of time
- solve short-time task and it is not cost-effective to hire an employee.
- make IT audit in different areas

We provide our customers with the best IT specialists on hourly basis for period up to 12 months. Our rates are different depending on the person's skills, but usually it is between **15\$ - 75\$** for work location in Ukraine and 25\$ -100\$ - outside Ukraine.

Database is increasing every day. Now we have over **700 consultants** ready to start working at short time notice. Our consultants are mainly freelancers with top skills, who would not normally take full time jobs, but are happy to work a day, a week, a month or more depending on task. They are very self-motivated people with experience of working directly with the customer.

With us you can solve all kinds of IT problems in the shortest period of time!

How to work with us

Process of getting IT consultants takes from 2 to 14 days, depending on skills of consultant, and **consists of such steps:**

- Step 1.** **Contact Duologic directly** at consult@duologic.net or phone +380 44 502 01 10 and inform us about your requirements. Within few days we will send you several resumes of IT consultants you could be interested in.
- Step 2.** **Choose one or few resumes** of IT consultants from recommended.
- Step 3.** **Get hourly rates, availability** of IT consultant and **make interview** with chosen person with our participation. It is possible to have interview face-to-face as well as by phone or video conference.
- Step 4.** **Sign frame agreement** with Duologic with appendix about assignment, hourly rates, and deadlines for the task.
- Step 5.** **Consultant starts working** in Clients place or in Duologic. If consultant works in Duologic office and needs additional services such as place, working station, it will additionally cost **100\$** per week.

After the task is done, Duologic takes consultant back or Client may prolong the contract.

Duologic takes care of employment, transport and accommodation costs, taxes, invoicing, management services, and satisfaction of consultant and customer during all working period.

We are doing everything to find the best consultants for each task and to make consultants' work for the customer most effective and comfortable.
